

Autonomous Community / Department / State	NEW YORK
Town	NEW YORK CITY
Building	Trinity Church
Adress	
s	40.7080624 -74.012184
	
Description	Gothic Revival style
Bells	<p>The steeple's 12 change-ringing bells are the only set in the United States; they rotate a full 360 degrees, producing a shimmering, cascading sound in a complex combination of changing tonal patterns. They can be heard on Sundays and special occasions.</p> <p>"The bells are the gift of Dr. Martin Faulkes, a London ringer, and they remain the only 12-bell change-ringing installation in the United States. Indeed, Trinity is one of only two 12-bell change-ringing towers in North America (the other being St. James's Cathedral in Toronto)." <i>HENRY, David</i></p>
Current bell ringing	Change Ringing Method
Conservation, maintenance	The present building is the third on the site, consecrated in 1846 and designed by British-born architect Richard Upjohn in the 19th century Gothic Revival style.
Protection	National Historic Landmark
